Position Summary

Nurse Unit Manager-PARU

- Exciting leadership opportunity
- Work in one of Victoria's largest health care providers
- Share the values of integrity, accountability, respect & excellence!

Located in the northeast of Melbourne, Austin Health comprises of Austin Hospital, Heidelberg Repatriation Hospital and Royal Talbot Rehabilitation Centre. Austin Health provides vital state-wide health services in a safety-focussed, team-orientated and stimulating work environment.

The Post Anaesthesia Recovery Unit (PARU) is one of Austin Hospital's critical care environments with a 24-bed capacity. As the Nurse Unit Manager of this service, you will provide clinical leadership to a dedicated team and ensure that the service is efficient and deliver quality services.

To be successful in this role you will have:

- Division 1 Nursing Registration
- Substantial clinical experience in Peri-operative services
- Graduate Qualification in Perianaesthesia or Critical Care Nursing
- Strong leadership & problem solving skills
- Working knowledge of professional standards
- Excellent communication skills with an ability to delegate
- Proven management and organisational skills
- Working knowledge of legal and ethical

requirements

- Experience in applying Human Resource Management principles
- Patient/customer focused approach to care delivery
